TRUCKS

AULICK

INDUSTRIES

AU truck

INTERIOR

EXTERIOR

④ **At Aulick Industries, we strive to make our trucks mechanically and cosmetically perfect.**

④ **Every truck goes through our body shop, where any external imperfections are repaired.**

④ **All interiors are repaired and detailed. A/C, cruise control and all other items are in working order.**

④ **The trucks are examined under a 100 point preliminary inspection, where issues are addressed.**

AU *truck*

FRAME

- ④ **Our trucks are full C-double framed from the rear of the front spring hanger to the end of the frame.**
- ④ **We also use grade 8 fine thread flange head frame bolts for superior tightness and strength.**
- ④ **Original frames are extended, if needed, with a single extension and overlaid with a single frame rail; up to 24 feet with no seam.**

ENGINE

- ④ **All trucks receive extensive mechanical diagnostics as they go through the stages of the building process.**
- ④ **Issues the truck may have are addressed after the mechanical diagnostics.**

AU truck

SUSPENSION

④ **We specialize in fully rebuilt tandem and single axle rear suspensions in either air-ride or spring ride.**

ACCESSORIES

④ **From stretching your truck to adding customized accessories, visit our Aulick Industries Truck Shop to see what we can do for you.**
